

Reverse Bandit Signs

Here are some bandit signs you can use when selling a house using an AMPS (TM) strategy. If you can place more than one sign in the front yard that would be best. Remember, you want these to be buyer magnets (the more signs to attract them the better).

We are selling terms so listing the payment on one of the signs will be what buyers are looking for. Never list the down payment in case they can pay more than what you were thinking of asking.

At the very least use the first one labeled "For Sale No Bank Needed..." I've received good feedback about hand written with black permanent marker on yellow blank signs.

Enjoy and good luck!

Phill
